

# Signal Processing and Communications Chapter

## 2006–7 Activities (to date)

| Date      | Speaker              |   | IEEE | Guests |
|-----------|----------------------|---|------|--------|
| 03 Apr 06 | Prof. John W. Pierre | Estimating Power System Electromechanical Modes from Measured Data  | 18   | 4      |
| 16 Jun 06 | Prof Jacob Gavan     | 1. Radio Systems Techniques for Enhancing Energy Efficiency, Reducing Interference and Parasitic Radiation            | 8    | 15     |
| 14 Jul 06 | Dr Tadeus Wysocki    | 1. Ultra-Wide Band Communications - still only a promise<br>2. Diversity – a Key to High Performance Wireless Systems | 15   | 6      |

# Signal Processing and Communications Chapter

## 2006–7 Activities (to date)

| Date      | Speaker                |  | IEEE | Guests |
|-----------|------------------------|--|------|--------|
| 26 Feb 07 | Prof. Kenichi Kanatani | Statistical Optimization for Geometric Fitting:<br>Theoretical Accuracy Bound and High Order Error<br>Analysis |      |        |
| 22 Mar 07 | Dr. Rama Chellappa     | Recent Advances in Still and Video-Based Face<br>Recognition   |      |        |
