Since the revival of the COMSOC North Jersey Chapter in 1994, we have been able to hold meetings on a regular basis, and indirectly encourage membership enrollment. Activities maintained throughout the past few years are attributed to the following factors:

- A proactive chapter chair is necessary to arrange for various meetings.
- A chapter vice-chair has been created to help co-ordinate activities, and especially to step in when the chair is on a temporary leave. Other officers may be augmented to sustain the chapter’s activities on a long-term basis.
- Availability of a close-by university has helped facilitate logistics for holding various meetings. This is a closed-loop feedback system, which encourages students’ attendance, and ultimately student memberships, COMSOC’s future generation.
- COMSOC provides distinguished lecturers who can be invited to deliver talks.
- A chapter web page within the North Jersey Section page has been maintained since 1995.
- Announcement of activities are disseminated electronically as well as via regular Section Newsletters.
