

TECHNICAL ACTIVITIES
Ad Hoc & Sensor Communications & Networks (AHSNTsC),
CHARTER

Board of Governors², 30 November – 1 December 2005

The Ad Hoc and Sensor Networks Technical Committee will serve as ComSoc's focal point in the area of wireless ad hoc and sensor networks technologies. The Technical Committee will play an active role in stimulating and organizing leading-edge wireless ad hoc and sensor networks symposia, workshops, sessions and tutorials at ICC and Globecom, and in particular serving SECON and other premier M&C venues. It will also work with the publication departments of ComSoc, existing ComSoc TCs and related societies to organize timely journal and magazine publications, including on-line publications at the ComSoc portal. The Technical Committee will also serve as a proactive facilitator in the dissemination of evolving wireless ad hoc and sensor networking standards by working closely with standards forums such as IETF, and ITU/T1.
