Publications Side Agreement

1. REV Promotion in ComSoc

1.1 The IEEE Communications Society (ComSoc) may consider for review the republication of at least one technical article, previously published in REV journal or magazine, but not already in the IEEE Xplore repository. ComSoc will consider no more than two such articles in a calendar year. A REV officer will manage the preparation of these articles, submitting them to the magazine Editor in Chief, who will then work in collaboration with the ComSoc Director of Magazines.

The paper may be subject to independent ComSoc refereed review and shall be: considered only with approval of the author's consent; shall be consistent with IEEE copyright policies; and be consistent with the then-current IEEE Publications and Services and Products operations. If republished in a ComSoc magazine, it shall be tagged as a republished article, including mention of at least the REV journal or magazine's name, volume, issue, and date. In all cases, this shall be viewed as an exceptional situation, and the ComSoc Editor in Chief's decision is final.

These articles will be prepared in English prior to submission to ComSoc.

1.2. Activities of REV will be promoted in ComSoc's IEEE Communications Magazine using a half or one page advertisement prepared by REV describing the Organization and its programs.

1.3. The REV advertisement will appear annually in IEEE Communications Magazine - no later than the third quarter of every year for the duration of this agreement; publication date will be mutually agreed upon six months prior to publication, and submission is subject to appropriate publication schedules

1.4. ComSoc will display the advertisement on its web server and replace the advertisement with an annual update from REV; a link will be provided to the REV home page. Approval of the advertisement shall be at the discretion of IEEE ComSoc.

1.5. ComSoc will display one copy of each REV journal and magazine at its ICC and GLOBECOM conferences, and will distribute subscription forms and calls for papers as provided by REV. One current copy of each REV publication will be air shipped to ComSoc for this purpose.

2. ComSoc Promotion in REV

2.1. REV will yearly review for publication at least one article previously published in a ComSoc journal or magazine. REV will consider for publication no more than two such articles per given year, consistent with ComSoc/REV copyright and related operations guidelines. ComSoc's Director of Journals or Director of Magazines will manage or oversee preparation of these articles, submitting them to the Editorial Board Director of REV for consideration in the appropriate REV journal or magazine.
ComSoc will submit these in English; REV will determine whether to translate them into the local language for publication.

2.2. ComSoc publications will be promoted in a REV magazine or journal using a half or one-page ad prepared by ComSoc describing the IEEE Communications Society, its sister-society relationship with REV, and ComSoc magazines and journals.

2.5. REV will display one copy of each of ComSoc's magazines and journals at major REV conferences and meetings, and will distribute subscription forms and appropriate ComSoc calls for papers. One current copy of each publication will be air shipped to REV for this purpose.
