

ComSoc Technology News now available on both iPhone and Android devices

Led by Prof. James Won-Ki Hong, the team with students Yoonseon Han and Yeongrak Choi from Pohang University of Science and Technology (POSTECH) Korea, has published [Android application](#) for [ComSoc Technology News \(CTN\)](#), a few weeks after their announcement on the launch of free app for iPhone, iPad or iPod Touch.

In 2011, the team developed ComSoc app for iOS and Android to provide useful online content to members. They extended the previous app to provide CTN for iPhone few months ago.

Now, the [Android version](#) ComSoc app is also updated to browse CTN on your android devices.

ComSoc Technology News (CTN) is an online publication that periodically provides the summaries of interesting, timely, and newsworthy papers and articles from ComSoc journals, magazines, and conference proceedings and other IEEE publications.
