

# IEEE ComSoc President Delivers January digital Issue of IEEE Communications Magazine with New Year Greetings

"Happy and prosperous New Year to all ComSoc members and ComMag readers! ComSoc will continue advancing communications technology and serving humanity." - Byeong Gi Lee.

In coming days, ComSoc members and subscribers of the **IEEE Communications Magazine** are expected to receive the first digital issue of the New Year presented by ComSoc's President

Byeong Gi Lee.

On the President's Page "ComSoc 2020 in the Converged Communications Era," Byeong shares his ComSoc "Golden Triangle" vision, followed by the "Growth Engine" vision, and the "ComSoc 2020" Vision.

The "Golden Triangle" of globalization, developing young leaders, and building relations with industry - are fundamental for ComSoc's renewal, designed to bring innovation to ComSoc's operation, while the "Growth Engines" intends to create new mechanisms for ComSoc's future growth, technical influence, and financial stability. In his ambitious "ComSoc 2020" vision, Byeong predicts that ComSoc has the potential to become "the No.1 Society in the IEEE" in every aspect over the next ten years.
