

Meet you in Shanghai! The first IEEE WCNC event in China - April 7-10

[The 2013 IEEE Wireless Communications and Networking Conference \(WCNC\)](#) is to be held in the magnificent city of Shanghai, China on April 7-10, 2013.

This is a historical event for the IEEE Communication Society. China is the largest mobile communications market in the world, and this is the first ever [IEEE WCNC event](#) being held in mainland China.

[IEEE WCNC 2013](#) is scheduled to include more than 800 technical and executive presentations, with papers showcasing the latest technologies, applications and services, as well as the keynote speeches, panel discussions, tutorials and workshops created to provide both industrial and academic perspective on many exciting topics in wireless communications and networking technologies.

While participating in the comprehensive technical program, you will have the chance to enjoy an amazing city Shanghai with a fascinating past and a thrilling future to make your stay memorable.

A savings of \$150 for a Full ComSoc / IEEE Registration and \$160 for a Full Non-Member Registration - includes a complimentary tutorial - is available to those register by **Friday, 18 March 2013**.
