

ComSoc Event Sponsorship

The IEEE Communications Society sponsors more than 100 conferences, workshops and other events each year for the benefit of the members of the society. These events are selected to address advancements in the area of communications technology, particularly in new, emerging areas. Our members enjoy opportunities to share new results and exchange technical information, network face-to-face with their peers, build communities of common interests, and help develop and grow their professional careers. ComSoc engages in two event sponsorship levels:

◆ Financial Sponsorships:

Events which ComSoc financially sponsors or co-sponsors, referred to as Portfolio Events. The ComSoc Director of Conference Development manages our portfolio and oversees the addition of new events. All portfolio events may be found on our [Portfolio Events](#) page.

◆ Technical co-sponsorships:

Available to those events which are financially sponsored by a not-for-profit organization, the technical scope of the event is within the ComSoc field of interest, and at least 3 ComSoc [Technical Committee](#) members have a direct and substantial involvement in the organization and development of the technical program. ComSoc has no financial involvement in the event. The Technical Co-sponsorship process is managed by the ComSoc Director of Conference Operations. All ComSoc technically co-sponsored events are available via our [Conference Search tool](#).

- **Benefits of ComSoc Technical Co-sponsorship (TCS):**
- The conference will be included in the IEEE Conference Search tool
- The conference proceedings will be posted in IEEE Xplore®
- The conference will be included in the ComSoc Conference Search tool
- The conference Call for Papers will be announced in the conference section of ComSoc E-news within a few months prior to the CFP deadline
- The conference will be listed in the *IEEE Communications Magazine* calendar pages
- The conference will be eligible for 40% off the list price of CFP and General Announcement advertisements in IEEE ComSoc Magazines: *IEEE Communications Magazine*, *IEEE Network Magazine*, and *IEEE Wireless Magazine*. For advertising information, please contact `e [dot] levine[at] comsoc [dot] org` (Eric Levine).
