

ComSoc Digital Library

ComSoc members get electronic access to a digital library of communications reference and research, pdf files for all package titles, the most current and previously published issues with three years of legacy files for [Communications Society Digital Library](#) and all legacy files for [Communications Society Plus](#).

Features for the [ComSoc Digital Library](#) include Patent Citations - linked references to US Patents where the paper has been cited; [My ComSoc Personal Library](#) - new tools to customize your digital library and create custom alerts.

IEEE Communications Society Digital Library — the most powerful resource to access the world of cutting-edge communications technology. IEEE Communications Society Digital Library provides instant access to over 50,000 papers from the library of ComSoc publications. ComSoc Digital Library by a traditional word or Boolean search, ontology subject selection, or browsing author names or publication titles. An ontology selection brings you a linked list of recommended papers, a linked selection of experts, and a linked list of related topics within the ontology configuration. My ComSoc, a new tool to make your online research easier.

Basic IEEE Communications Society Digital Library personalization tools are free to the public. IEEE Communications Society members have additional access to the CommOntology feature and authorized full-text content.

Your Personal Library- [My ComSoc](#) at the IEEE Communications

- Customize your online access to the best communications publications
- Create your personal profile to maximize efficiency and awareness
- Display your favorite papers. It's a personal filing cabinet of selected articles
- Display the latest papers published for your favorite keyword, subject, publication, or author
- Select a "favorite" for notification or "alert" via email of new content published
- See access rights and purchase history

Periodicals in Digital Library:

- IEEE Communications Magazine
- IEEE Network
- IEEE Wireless Communications
- IEEE Transactions on Communications
- IEEE Journal on Selected Areas in Communications
- IEEE Communication Letters
- IEEE/ACM Transactions on Networking
- IEEE Transactions on Wireless Communications
- IEEE Transactions on Network and Service Management
- IEEE/KICSJournal of Communications and Networks
- IEEE Communications Surveys and Tutorials

Ontologies, hierarchical (tree-like) classifications of all the articles and people in a collection, enable easy access to the content for novices and experts. The ComSoc Publications ontology organizes all content according to the publication, volume and issue in which it appeared. The Subjects ontology organizes the collection by general topics and more specific subtopics. There are approximately 500 topics in the subject ontology, with subtopics going 4-7 levels deep. The subject ontology, in particular, is useful for giving an overview of the field.

- Locate the paper you want in the online
- Each paper's characteristics are summarized in a summary page containing:
 - *Title, Full Text, Author, Bibliographic Entry, Ontology Subjects, Keywords, Abstract , References, Citations, Patent Citations*

Conferences included in Digital Library:

- IFIP/IEEE International Symposium on Integrated Network Management
- IEEE Global Communications Conference
- The Conference on Computer Communications
- IEEE International Conference on Communications
- IEEE Military Communications Conference
- IEEE/IFIP Network Operations and Management Symposium
- IEEE Wireless Communications and Networking Conference
- IEEE Consumer Communications and Networking Conference
- IEEE Communications Society Conference on Sensor and Ad Hoc Communications and Networks
- IEEE International Symposium on Personal, Indoor and Mobile Radio Communications
- IEEE Symposium on New Frontiers in Dynamic Spectrum Access Networks
