ieee [dot] org
(Hsiao-Hwa
Chen)

IEEE Wireless Communications is designed for audience working in the wireless communications and networking communities. It covers technical, policy and standard issues relating to wireless communications in all media (and combinations of media), and at all protocol layers. All wireless/mobile communications, networking, computing and services will be covered. Each issue of this interdisciplinary magazine provides tutorial articles of high quality and depth concerning the revolutionary technological advances in wireless/mobile communications, networking and computing.

For those interested in volunteering to be on the *IEEE Wireless Communications* Editorial Board, please [click here](#).
