The membership status of each candidate has been verified (Juergen Haag is applying for Senior Member status.). Biographies and candidate statements are attached, and I have headed every section with name, candidate position and bio/statement for clarity.

Please arrange to have our votes tallied by region. Also as usual, we would like the ballots mailed by April 15, with returns due back to IEEE by June 30 allowing 10 weeks for returns , and

having the results announced around July 10,. We will continue the option of electronic balloting – and will again include a “raffle” to encourage electronic voting.

We would like to see the ballot before it goes to the printer (as usual). If you have any questions, please call me (212-705-8970). As always, Alicia, thank you.
