

Trip Brief of the Tour to Chengdu and Beijing Chapters.

The Distinguished Lecturer, Professor Shui Yu, visited Chengdu chapter during June 26-29, 2019. Two talks have been carried out during his visit.

1. On the morning of June 27, Professor Yu gave a talk at Sichuan University, the title is “Big Data Privacy: from Networking and AI Perspective” (which is a combination of the proposed two talks on ComSoc Website following the request of the host), the talk was chaired by Professor Xingshu Chen, the Dean of School of Cybersecurity, Sichuan University. The information of the talk was posted at the University Website. More than 120 staff and students joined the talk. The feedback of the talk was excellent.

2. On the afternoon of June 27, Professor Yu gave a talk at University of Electronic Science and Technology, the title is “Cybersecurity and Privacy: State-of-Art, Challenges, and Opportunities”, the talk is chaired by Professor Hu Xiong from School of Software of University of Electronic Science and Technology. Around 30 staff and students attended the talk, and the feedback was great.

The Distinguished Lecturer, Professor Shui Yu, visited Beijing chapter during July 5-10, 2019. Two talks have been carried out during his visit.

- July 7 (Sunday), Professor Yu gave a talk at Beijing University of Science and Technology, the title was “Networking and Big Data: Challenges and Opportunities”, the talk is chaired by Professor Haijun Zhang of Beijing University of Science and Technology. Around 20 staff and PhD students joined the talk.

- July 9, Professor Yu gave a talk at North China University of Technology, the title is “Cybersecurity and Privacy: State-of-Art, Challenges, and Opportunities”, the talk was chaired by A/Professor Yunhua He of North China University of Technology. More than 70 staff and students joined the talk. The talk was successful based on the number of attendance and feedback.
