

Roberto Saracco – AP DLT

Wuxi

The lecture was organised by prof. Xiaong Wu at the Jiangnan University in Wuxi. It was attended by some 50 students plus members of the faculty and several visiting professors. I met with a number of key people in the Municipality of Wuxi, a city participating in the IEEE Smart Cities program, co-chaired by COMSOC: Mr. Bin Xiao, Division Chief of Wuxi Municipality and Mr. Baochun Zuo, Vice Director of the Wuxi Muni Internet of Things dept have extended the invitation to give a keynote to the upcoming IoT World Event in Wuxi on Sept 7th. 2019. I have informed Khaled and he will take care of that.

Shanghai Chapter

The lecture was organised by the Shanghai Chapter Chair, prof. Xinwan (Stevens) at Jiao Tong University in Shanghai. It was attended by some 30 people (students, most of them COMSOC members and a few faculty, COMSOC members), The lecture was videotaped and will be made accessible to Chapter's members and to University students.

Both in Wuxi and Shanghai I used the same presentation material, attached.

Beijing AIAED 2019 Conference

I gave a talk on the use of Digital Twins in Education and presented a way to use them in the context of the WCET program of COMSOC, following the presentation of the idea at the OCMOSC Board and having received support. There were some 100 people who attended the talk.

Shenzhen - Huawei

I made a presentation at David Wang, president of Huawei Software for Consumers (basically in charge for smartphone applications) and to Baofeng Zhang, CTO Software for Consumer and Director of the NAOH Artificial Intelligence Lab. At the meeting there were several other people working in their area. I left them some material on Digital Twins to distribute to the Shenzhen Chapter.
